

Re: Klove Phoenix 105.5, 89.1 and 100.9

To whom it may concern,

The purpose of this email is to share the importance of maintaining FM translator service in Phoenix, AZ. Klove, a FM translator station, is a station that gives an outpouring of positive messages and music. In a sex, drugs and negative music saturated world marketed toward our children. Klove provides messages that not only adults can enjoy, but children thrive and soak up. Klove helps them to develop into young teens and adults full of character and compassion for others. Please help keep this station alive for the future of our children, for all those people who are struggling with high levels of stress and despair who need to hear something, anything to give them hope, peace and strength to live in this crazy world. PLEASE!
